

UFO WHITEPAPER

UFO Introduction

UFO is a decentralized online gaming platform based on the Tron network.

UFO is devoted to develop exciting games that bring financial gains to the users while users are accumulating UFO tokens in the process.

Users of the platform are not only players but also UFO token holders. The platform distributes its revenue to UFO token holders to give back to the supporters on a periodic basis.

UFO is committed to establish a secure and verifiable platform, and has every intention to provide users a reliable investment environment. To protect the investment of the users and empower the value of UFO tokens, we take every measure to avoid forced listing.

UFO Token

The UFO token is issued by the platform as a means to distribute game revenue to the stakeholders. A total of 100 million UFO tokens are minted.

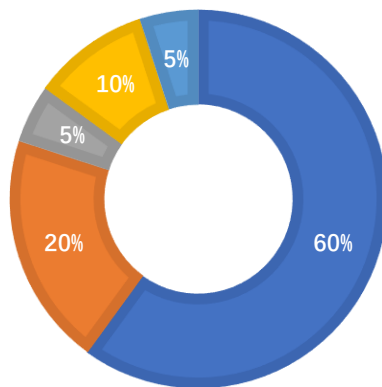

100% of the platform's dividends is distributed to UFO holders. 50% of the dividends pool is distributed every 24 hours. Dividends are automatically sent through smart contracts.

10% of the platform's revenue will be allocated to the auction pool. Another 10% of the platform's revenue will be allocated to the hourly leaderboard contest.

60% of total UFO tokens can be mined from playing on the platform.
